Latino Leadership's ¡Adelante! America Initiative focuses on helping Latino students complete high school successfully. The project targets youth in grades 8-10 to cultivate optimism, build resilience, and improve their academic skills. The program has developed a set of services and activities that link classroom learning with the challenges students face in post-secondary education and the workplace of the future. Students will engage in positive relationships with local civic, business, and educational communities to increase their knowledge of the world beyond classroom walls. We invite you to participate and take control of your future!

- Attend Weekly *Engage* Meet-ups
- Conduct student-led *Global Civis* community service project
- Conduct student-led leadership conference in December
- Establish mentor relationships
- Participate in supplemental education opportunities:
  - Tutoring
  - Financial Literacy
  - Computer Skills
  - Other Support Services
- Keep progress report
